

## PROTECTION TRAINING PROGRAM - Levels 4 to 5

All live-in protection training programs come with a free consultation including a video showing and assessment on your dog to ensure that it is suitable for this type of training program.

### - Level 4 - 24 day course

This course is 20 days live-in and 4 lessons with the owner. Watch dog training covers the same advanced obedience as level 3 training to give you the necessary control needed over the dog. It also covers the same behavioral problems as the level 3 program. With this course we teach the dog to respond in an aggressive manner to an offender that is showing aggression or suspicion, this dog is also taught to respond to a verbal command of "watch" used if you were approached passively by an offender the dog will then become on alert and show aggression to that person to deter them from coming any closer. The dog is also taught car and property security. No bite work is done in this course.

### - Level 5 - 26 day course

Security dog training covers the same advanced obedience as level 3 training to give you the necessary control needed over the dog. With this course the dog is taught all of level 4 training techniques, also covered in this program is the bite work where the dog is taught on and off lead attacks the assault on the handler where if the handler is attacked the dog will automatically respond, then leave and return to the handler, pat down, arrest and transport of the offender and crowd control. This work is carried out with concealed training equipment to set up the real life situation and bite predictability. We also condition the dog to work in different environments buildings unstable ground etc.

### - Level 6 - 60 day course

Advanced security dog training covers the same obedience exercises as level 3 training but at a great distance and higher standard. **Level 5** Security dog training is also incorporated in this course.

This dog is then taught basic man trailing and air born scent techniques, building search, then find and hold, release, hold, or arrest and transport.

### - Level 7 - 6 week course

*It deals with long lasting behavioral problems like: Digging, Chewing, Barking, Jumping up on people, Separation Anxiety, Not Coming when called, Pulling washing of line, Animal and human aggression, dominance over children and adults, jumping over fences, going under fences, property destruction and more.*

The 6 week course is designed for owner and dog starting from basic on lead work to a high off lead standard. This course consists of 6 consecutive Saturday mornings from 8am to 10.30am in a class with 10-15 people and dogs, being instructed by one of our professional trainers. This course is designed to give you total control of your dog teaching some 17 advanced exercises and dealing with all behaviour modification problems.
