

SPECIFIC TRAINING PROGRAMS

PRIVATE TUITION PROGRAM - 4 week program

This course is either in the comfort of your home or onsite at Coltrandi Training Centre.

The lesson is conducted with one of Coltrandi's professional instructors teaching you from basic on lead to off lead obedience work. Each lesson lasts approximately 1 hour, we teach 17 exercises throughout the course and deal with all kinds of behavioral problems.

PUPPY INTERACTIVE PROGRAM – 4 week program

This course is to teach your puppy basic knowledge on how to socially interact with other pups and people. It teaches them very basic commands such as stand, sit, down, come. We teach them to accept that being handled by various people is not a threat, which in turn will allow visits to the vets less stressful for you and your puppy.

AGILITY TRAINING - 6 week program

Yes dogs have plenty of energy to burn, all aspects of training can help in many different kinds of behavioral problems giving your dog exercise he enjoys will certainly keep him fit and active "at the right times", mentally and physically satisfied. You can teach your dog to jump when he is commanded and not when he feels like it.

They learn many different training techniques like weaving, going over the A frame through the material sock, walking the plank, high jumps, broad jumps and many more. We also teach dog tricks and food refusal.

BAIT TRAINING - 8 Day live in program

Pre-requisites and evaluation required prior to training

This training is where your dog is taught to sit and wait for a selected command to eat food from their food bowl. They are taught not to eat food from your hand or food off the ground.

We then teach you how to maintain this training at home to ensure that your dog is safe guarded from ever taking baits. We recommend testing every 12-18mths.
